Qc-Calc Beyond Basics

COURSE DESCRIPTION

The course is designed for those who want to go beyond QC-CALC's automatic operation and take advantage of its full power to optimize data collection and automate repetitive daily tasks.

COURSE OBJECTIVES

Upon completion of this course, the attendee will be able to:

1. Change the look and feel of QC-CALC

2. Output inspection results to QC-CALC and display each feature as a plot

3. Create inspection reports

4. Export results to various database formats

5. Create and modify QC-CALC databases

6. Manually create databases and enter data

7. Generate reports indicating in-tolerance and out-of-tolerance conditions

8. Use the trending function for charts
